

"My busy day"

—the day when house cleaning sets in. If you do it in the old-fashioned way, every man, woman, and child wants to get under cover. Do it with Pearlina and you will not. Pearlina housecleaning is quicker, quieter, smoother, thorough with, easier. Saves much rubbing. Saves paint. Saves temper. Wherever you can use water for cleaning, use Pearlina with it and you'll get the best work. And let the children help. They enjoy cleaning with Pearlina, and you'll be training them in the way they should go.

Millions use Pearlina

M'KINLEY FIRM.

Spanish Government Desires Gen. Lee Recalled from Havana.

But the President Will Not Consider Such a Thing.

Neither Will He Countermand Orders to War Vessels.

Consignment of Relief Supplies Will Proceed as Ordered.

Madrid, March 6. Señor Gallon, Spanish minister of foreign affairs, recently intimated to United States Minister Woodford that the Spanish government desired the recall from Havana of Consul General Lee and that the American warships which have been designated to convey supplies to Cuba for the relief of the sufferers there should be replaced by merchant vessels in order to deprive the assistance sent to the rebels of all official character.

Woodford cabled the request to the Washington government which refused, refusing to recall Gen. Lee in the present circumstances or to countermand the orders for the despatch of war vessels, holding the representation that the relief vessels are not fighting ships.

Will Not Consider the Recall. Washington, March 6. As The Associated Press despatch March 5, received this morning, the State Department authorized the following statement: "The President will not consider the recall of Consul General Lee from Havana throughout this crisis with judgment, dignity and courage to the President's entire satisfaction."

As to the supplies for the relief of the Cuban people all arrangements have been made to carry a consignment this week from Key West by one of the naval vessels, whichever may be best adapted to the purpose, and the purpose, to Matanzas and Sagua. Although the officials here are now committed on the subject, it is believed that the request for Gen. Lee's recall was made at least a day or two ago and that the Spanish government after receiving the reply of the State Department has not insisted either upon Lee's recall or upon its contention that the relief supplies should not be sent to Cuba in naval vessels.

Beyond the foregoing, those who participated in the conference at the White House would not discuss the subject and it was stated positively that the subject and statement comprised everything that was to be given to any one. The advice from Madrid, together with the authoritative statement here, left no room for doubt as to what had occurred. The request for Gen. Lee's recall is understood to have come within the last few days, and doubtless since the last cabinet meeting on Friday, no reference was made to it at that time.

It came through Minister Woodford, a somewhat unusual procedure, as the common mode of requesting the recall of a minister or the recall of a representative of the government making the request, which in this case, a senior diplomat, the Spanish charge d'affaires, Mr. DuBois had requested the recall of Gen. Lee. The demand made through Minister Woodford. The other

Suggestion of Spanish Government, that relief supplies should not be sent in war vessels, did not come through Minister Woodford, as the Madrid despatches state, but was presented by Señor DuBois to the State Department last Friday.

The responses in both cases went direct to Minister Woodford. There was no loss of time, however, in assembling a special session of the cabinet, or even a general conference between the President and his cabinet advisors individually. In the protest against the Montgomery and Nashville, Judge Day conferred with Secretary Loug, who in turn called in Capt. Crownsfield, chief of the bureau of navigation. There appeared to be no reason why a change should be made in the plan for sending these supplies, and without attending grave significance to the request of the Spanish government the answer was made that the plan for the trip were completed and that the stay of the ships would be brief and of the most peaceful character.

In responding to the request for Gen. Lee's recall, the president does not appear to have been the subject of such discussion as would require the views of his cabinet associates, and after a brief exchange between the White House and the State Department, the request was dispatched to Minister Woodford. One phase of the incident that tends to show the disregard for the administration is the expectation with which the cabinet was assembled. Such a matter ordinarily is laid before the cabinet, the views of all its members personally given.

given by Consul General Lee to the officers of the Maine. The last paragraph of the despatch is said to have omitted some of the Spanish naval officers and to have included, quite conspicuously, the names of a number of American newspapers or correspondents who regarded the Spanish officials at Havana as antagonistic to them.

This also came to the attention of the officials here, but was not made the basis for any action on the part of the Spanish government. Gen. Lee's general mode of procedure.

Within recent days it has been understood by officials here that the feeling against General Lee had deepened and that the request for his recall was for that reason in the nature of a complete surprise. There are circumstances, however, which clearly indicate the grounds for the recall, although it is not known that Spain has made any executive decision of complaint. Since the Maine disaster a report has been circulated that Gen. Lee had been ordered to recall the explosion was due to explosives.

No official report of this character was ever sent to Washington so far as is known. But the mere circulation of the report at Madrid, attributing such views to Gen. Lee has been the

Source of Much Feeling in Spanish official circles.

The despatches from Madrid disclose that Gen. Lee is held accountable there for the report of the purchase of Cuba by the United States as well as for a general sentiment of sympathy toward the insurgents.

The suggestion of the Imperial, a leading government organ, that the next session of the Cortes will discuss the case of Gen. Lee shows the strong influence which induced the cabinet to a recall.

In this connection, it is noted that Señor de Lome is due in Spain.

His enforced retirement is felt to have awakened a counter-sentiment at Madrid. There is also the fact that the Spanish government has shown the sympathy Gen. Lee has shown for the Cuban sufferers.

BETHEL WORKED UP.

High Pitch of Excitement Over Judge Foster's Case—He May Speak at Town Meeting.

Bethel, Me., March 5. People here are worked up to a high pitch of excitement over the Judge Foster case. Friends of the judge are making Monday moderator over the town meeting. It is said that there will be opposition and this village is likely to witness the most exciting day in its history.

It is asserted by friends of the judge that if he is allowed to serve he will make a speech.

He has, it is reported, declared he will say something which will interest his friends, but may not be so pleasing to some members of the Congregational church.

Judge Foster said: "In case I am not reappointed my lips will be unsealed, and I shall have something to say which may be interesting to certain parties."

ATTACKING GENERAL LEE.

Spanish Newspapers Call Upon Their Government to Demand His Recall.

Madrid, March 5. For several days the newspapers have been violently attacking Consul General Fitzhugh Lee. The Imperial after remarking that "an American newspaper has insinuated that Gen. Lee is a member of a syndicate desiring the purchase of Cuba" says: "His ill will toward Spain is so marked that even American newspapers identical to Spain are repeating it."

The Imperial calls upon the government to demand the replacing of Consul General Lee "who instead of tightening the bonds of friendship between Spain and the United States, has put the situation more threatening." It adds that the next session of the Cortes will "consider Consul General Lee's conduct."

The Havana correspondent of the Imperial says: "Among the packages of food sent to the Americans to Cuba, the customs officials found watches, jewelry and other contraband articles. All such parcels were consigned to Consul General Lee, who is said to have energetically protested against such contraband declaring that it was 'without his knowledge.'"

Other papers accuse Gen. Lee of being "better disposed toward the Cuban insurgents than toward the colonial government."

The Spanish press, however, in no wise reproaches United States Minister Woodford, whose conduct is irreproachable, and who affords every opportunity to express pacific sentiments.

FOR MAYOR OF AUGUSTA.

Augusta, Me., March 5. At the Republican caucus this evening, J. Manchester Haynes was nominated for mayor, receiving 514 votes to 344 for Frederick Cony.

WAR MEASURES

Are What Naval Officers Believe United States Will Adopt.

Conviction Becoming Settled That Decision Will Be Mine Explosion.

Belief That Troops Will Be Landed East of Havana.

This Is the Perhaps Far-fetched Talk from Havana.

Havana, via Key West, March 6. As the conviction becomes settled that the court of inquiry will decide that there was no mine explosion, the American naval officers and civilians here are prevalent as to the warlike measures which it is believed the United States government will adopt in case the question of the payment of indemnity by Spain is overruled.

A majority believe that American troops will be landed at some point east of Havana, and the insurgents communicated with; that the Spanish soldiers will be defeated or captured in detail and that in the meantime a fleet of United States vessels will blockade the harbor of Havana. No one seems to doubt that the reduction of this city would be comparatively easy. Four 12 inch guns—two west and two east of the city—are the only ones that are considered dangerous. These are not likely to be well served while their emplacements are not modern.

That some Spaniards are of the opinion that a street fight in Havana will be made, is believed to be shown by the abnormal activity displayed on board the Vizcaya. The correspondent has the best naval authority for the statement that the Vizcaya is in a constant state of readiness for emergencies.

and that picket boats are on the alert day and night inside the harbor and outside. It is pointed out that the men-of-war Vizcaya and Almirante Quenda might be caught in a block and fall an easy prey to a United States fleet. The cruiser Alfonso XII is without boilers and would be of no account.

All this discussion on probability of war among the Americans and Spanish press is doing and only shows the state of feeling here.

The conduct of the Spanish divers who are investigating the wreck of the Maine is a mystery. Thus far they have not been down the wreck. In the aggregate and show no disposition to make a thorough inquiry.

It is impossible to learn the truth fully regarding the purpose of the Spanish court of inquiry, but it is generally believed that the divers were sent down for form's sake only and a report will be made in accordance with instructions from Madrid. It may be that the Spanish divers have discovered that the whole port side of the Maine forward is gone and having so reported further examination is deemed unnecessary.

The work of our workers hereafter is bound to be slow, owing to the ponderous weights to be moved and the safety clamps, nuts and rivets must be out.

Senator Proctor is likely to make a speech in the Senate on his return that will have great weight in determining the future policy of the United States. He is said to be suffering from the whole port side of the Maine forward is gone and having so reported further examination is deemed unnecessary.

During a visit to Artemisa, he saw thousands of reconcentrados who refused to beg though starving. They were evidently of the class accustomed to make their own living and unwilling to become paupers.

He saw thousands of acres of the best tobacco and banana lands in the world reduced to waste, with trees and garbanzoes every where and the ruined houses, pointing to the mountains 15 miles away, said: "There are plenty of insurgents camped there that the Spanish have never discovered."

Now that the distribution of American relief under Miss Clara Barron, Mr. E. J. Proctor's judgment, carefully and effectively carried out. The demand is far in excess of the supply. The supplies expected at Matanzas and Sagua la Grande to be brought by American cruisers, will afford unequipped relief.

That the Almirante Quenda and Vizcaya are lying in the harbor, the Spaniards exultingly declare that the city is safe, and it is given out officially in the newspapers that the new arrival is of the same value, equipment and complement as the Vizcaya.

AT PEACE AGAIN.

Gov. Black's Settlement of Republican Differences a Masterpiece.

New York, March 5. Gov. Black's settlement of the Republican differences with a new primary reform scheme is regarded among politicians as a masterpiece of political management. It has brought about substantial harmony between the Platt and anti-Platt factions.

Differences and antagonisms were created by the Greater New York campaign which resulted in sharp divisions in the party, and every village and city of the state is full of the same. Unless the Republicans can be reunited, the Governor says, he could not hope to be re-elected, and the party might be permanently split, as it was in the state half-brother feud. Though the task of restoring peace seemed almost impossible, the Governor, aided by Louis E. Ryan, undertook it. He has succeeded so well that, unless some new bone of contention is found, he is certain to have a united party behind him next fall.

Foreroff will vote at town meeting on an article to appoint a committee of three to settle the Hale case on a 20 per cent. basis.

In Sing Sing prison Saturday afternoon Adrian Braun, serving two years for holding his wife, murdered her; she had killed her husband.

FOR CONGRESS THIS WEEK.

Senate Begins Week With District of Columbia Bill.

House Takes up Bill of Male Victims and Cast Defense.

Programme for the Week Entirely Peaceful As to Foreign Complications.

Washington, March 6. The Senate will probably begin the week with the District of Columbia bill and when completed take up the conference report on the executive, legislative and judicial appropriation bills.

House Forecast.

It is probable that both the bill for the relief of the survivors and the victims of the Maine disaster and the Senate bill creating two additional regiments of artillery with which to man the coast defenses, will pass the House this week.

The former bill was held up until it could be investigated as it was said that the special bill for the relief of the survivors and victims of the Maine wreck led to some scandal.

The bill was loosely drawn and it has been asserted that some advantage of its provisions were taken. The present bill has been carefully drawn.

Practically all opposition to the artillery bill has now disappeared in the House; the leaders were, it is said, in favor of delaying action upon it to allow public alarm which must have been intensified had it been rushed through the House as it was through the Senate.

Beyond action of these two measures, the House programme this week so far as is now anticipated is entirely peaceful and has no reference to possible foreign complications. Any outlook for development in the Spanish situation might change the programme.

THE STRIKE IS OFF.

The Biddeford Mills to Start Up Again with Reduction of Wages.

Biddeford, Me., March 5. The cotton mill strike is off. The agent of the Peppercorn and Loomis mills will reopen the mills Monday, and the strikers, or a majority of them, have voted to return to work under the 10 per cent. cutdown.

Neither side can claim an absolute victory.

A BOLD ROBBERY.

Three Masked Men Arrayed in Women's Garments Hold Up People in a Store.

Boston, March 6. A daring robbery was perpetrated at 8 last night in the grocery store of Peter F. Bourke, Cambridgeport.

Three men, wearing masks and women's garments, covered the occupants. They secured \$100 in the cash drawer and escaped.

WHIG'S ADVERTISERS.

Points for Buyers Who Want the Best at Lowest Possible Prices.

This morning we call attention to the story of A. Lewis, who has the finest of pipes and smokers' articles.

Then J. C. White & Co. offer a special bargain sale of tourists' blanket shawls. The Coombs-Danforth Co. are out with a notice of special bargains in ladies' boots.

The Bacon & Robinson Co. have satisfactory cost and wood.

Rough hands? Try Caldwell Sweet's Ideal Cream.

P. H. Vose & Co. in the lamp business are as in all else—perfect.

Keep Well

Easy to say, but how shall I do it?

In the only common sense way—keep your head cool, your feet warm and your blood rich and pure by taking Hood's Sarsaparilla.

Then all your nerves, muscles, tissues and organs will be properly nourished.

Hood's Sarsaparilla builds up the system, creates an appetite, tones the stomach and gives strength. It is the people's Spring Medicine, has a larger sale and effects more cures than all others.

Hood's Sarsaparilla

is America's medicine. C. I. Hood & Co., Lowell, Mass.

Hood's Pills are the favorite family cathartic. Price 25c.

WAR IN THE AIR.

Costa Rica and Nicaragua Preparing to Clash Arms.

The Conflict Is Likely to Take Place at Any Moment.

People Leaving Their Labors by Thousands to Enter Conflict.

War Has Been Practically Declared Between the Countries.

San Jose, Costa Rica, March 5. War has been practically declared between Costa Rica and Nicaragua. Both states are busily preparing for war.

Troops are sent from here every day, and fighting may begin at any moment. Costa Ricans are enthusiastic. By the thousands they leave their labors to offer their services to the government.

All political differences are set aside and even wealthy persons offered to the government administration have offered their services and money.

It is the opinion that the Diet of the great Republic is practically dead. Salvador sides with Costa Rica against Nicaragua and Honduras. A serious dissolution of the Diet is expected at any moment.

INSTANTLY KILLED.

Newton Highlands, Mass., March 6. John Fock, 35, was thrown from his carriage today in a collision with an electric car and was instantly killed.

KILLED IN A DUEL.

Rome, March 6. Signor Felice Carla Cavallotti, poet, dramatist, was killed here today in a duel with a swordsman, Signor Marola, editor of the Gazzetta di Venezia.

DROWNED WHILE BOATING.

Fall River, Mass., March 6. Michael Collier and William Tope were drowned this afternoon by the capsizing of a row boat.

PITTSBURG'S FATAL FIRE.

Pittsburg, Pa., March 6. A most exciting fire occurred at 615 Webster avenue today in a collision with a row boat. Mrs. D. Ennis was suffocated and 5 others badly burned. Three may die.

It is said that counsel for the insurance company has discovered no evidence at all.

The strike at Biddeford, Me., is off.

Lamp Wants

of every kind are satisfactorily filled here. We do the lamp business, as everything else, thoroughly and keep everything in the lamp line from a lantern wick to a handsome drawing room lamp.

Wicks, No. 1, No. 2, No. 3, No. 4, No. 5, No. 6, No. 7, No. 8, No. 9, No. 10, No. 11, No. 12, No. 13, No. 14, No. 15, No. 16, No. 17, No. 18, No. 19, No. 20, No. 21, No. 22, No. 23, No. 24, No. 25, No. 26, No. 27, No. 28, No. 29, No. 30, No. 31, No. 32, No. 33, No. 34, No. 35, No. 36, No. 37, No. 38, No. 39, No. 40, No. 41, No. 42, No. 43, No. 44, No. 45, No. 46, No. 47, No. 48, No. 49, No. 50, No. 51, No. 52, No. 53, No. 54, No. 55, No. 56, No. 57, No. 58, No. 59, No. 60, No. 61, No. 62, No. 63, No. 64, No. 65, No. 66, No. 67, No. 68, No. 69, No. 70, No. 71, No. 72, No. 73, No. 74, No. 75, No. 76, No. 77, No. 78, No. 79, No. 80, No. 81, No. 82, No. 83, No. 84, No. 85, No. 86, No. 87, No. 88, No. 89, No. 90, No. 91, No. 92, No. 93, No. 94, No. 95, No. 96, No. 97, No. 98, No. 99, No. 100.

If it's anything in the lamp line you'll find it here—good of its kind.

**Average of Annual Drink Bill of United
Kingdom—Over 1700.**

(Copyright 1893 by the Associated Press.)
London, Mar. 5.—Throughout the week
London has been given over to local
politics and the proceedings in the House
of Commons have not excited much in-
terest.

The men will hold a party council on
Monday and clear up arrears of business
before starting for the Riviera on Wed-
nesday. The House of Commons is expected to
re-open the Ministry, the necessary papers,
however, not having yet arrived.

The Princess Louise and her
children will accompany Queen Victoria
to the south of France. Her Majesty
will for the first time, habitually use
motor cars.

About 100 bills have already been in-
troduced in Parliament of which number
eight are government measures, and one
is a legislative emergency, introduced by Mr.
T. D. Macdonald, anti-parliamentary mem-
ber for South Kensington, and editor of
the "Standard." A large number of bills
of a private character have also been in-
troduced, but the use of the House of
Commons is not so free as it was.

will for the first time, habitually use
motor cars.

About 100 bills have already been in-
troduced in Parliament of which number
eight are government measures, and one
is a legislative emergency, introduced by Mr.
T. D. Macdonald, anti-parliamentary mem-
ber for South Kensington, and editor of
the "Standard." A large number of bills
of a private character have also been in-
troduced, but the use of the House of
Commons is not so free as it was.

The House of Commons is expected to
re-open the Ministry, the necessary papers,
however, not having yet arrived.

The Princess Louise and her
children will accompany Queen Victoria
to the south of France. Her Majesty
will for the first time, habitually use
motor cars.

THE OFFICIAL COURSE

**Must Be Followed by Report on
Loss of the Maine.**

**Will Be Some Time Before Testimony of
Witnesses Can Be Taken.**

**Arrival of Another Spanish Cruiser at
Havana—Other Items.**

Washington, Mar. 5.—The develop-
ments at the State Navy and War de-
partments in connection with the Spanish
situation have divided themselves into
two distinct branches, one relating to the
Maine court of inquiry, and the other the
naval and military arms of the service of
an efficient basis. Concerning the court
of inquiry, the War department is con-
sidering the expediency of sending the
authorities here of the most promi-
nent character and of the highest naval
and military rank, so that they will be
able to give the court the benefit of their
experience and knowledge.

Admiral Sampson's telegram last night
gives the only clue as to the plans of the
court, and it is expected that it will be
some time before the testimony of the
divers and other witnesses can be taken
and the court can be held.

The court of inquiry is expected to be
held at Washington, and it is expected
that it will be some time before the
testimony of the divers and other witnesses
can be taken and the court can be held.

TALK ON "ANATOMY."

Dr. E. F. Sawyer Presents Important Facts in Interesting Manner Before Mothers' Club

An unusually large number of ladies met at the Board of Trade Rooms on Saturday afternoon to listen to the talk on "Anatomy" given by Dr. E. F. Sawyer before the Mothers' Club and others. It was a valuable and most interesting discourse.

Dr. Sawyer began at the very beginning of existence, and in speaking of anatomy touched upon many interesting topics. He illustrated, very profusely the germ, protoplasm and each topic as he took it up. He spoke at some length of the bones, heart, lungs, circulation and kidneys, and the different offices of the pulse he said the average adult heart should be 72, new born infants 120 to 140. The more oxygen we breathe, the more we live healthfully. He explained the cause of peritonitis, the different functions of the stomach, the small and large intestines. In the small intestine is first received the uncoagulated food from which the food passes to the larger stomach where it is again digested.

He mentioned the different organs of the head and the five senses, speaking briefly of the nervous system, brain ganglia, red action and motor action. In speaking of the brain he asserts that a child's brain should not be forced to do its physical development. This causes insanity or a physical wreck in other directions.

It was very interesting to follow from illustrations how a child learns to speak, and in what way one sense follows another. For instance, he sees a ball, hears it sound, through tactile center touches it, hears some one call it a ball etc. Each nerve sense has a connecting link or nerve fibre.

He spoke quite extensively of a new born child its weight and height. It weighs 120 while asleep and 130 when awake.

Its stomach holds just one ounce and milk will digest in two hours. Feed every two hours the first few months, then every three or four hours, etc., until six hours are reached with no feeding between meals. Water after meals helps digest the milk, stops colic and fermentation.

The muscles are not well developed until six months old. Walking too soon develops knock knees and bow legs. A child cannot recognize its mother from any age before three months old. The teeth were spoken of and when they make their appearance where sufficient nourishment has not been given for development of teeth, they will be much longer in coming forth. On this subject it has been known of some children not having teeth before two years old.

In questions which the ladies had sent in to Dr. Sawyer were then answered by him.

These brought forth quite a little discussion, which was very enjoyable.

A rising vote of thanks was then given to Dr. Sawyer for his kindness in giving the ladies such a practical lesson in physiology.

The next meeting is to be held at Mrs. Warner's kindergarten room, State street, next Saturday at 2 o'clock and it is to be an experience meeting. The subject of discussion will be "At what age should a child have spending money, and how best to teach a child the value of money?" A paper will be read on "The Adolescent Girl," which will prove valuable to many mothers who have girls at that trying age, also short papers on the muscles and nerves that were unavoidably omitted at the previous meeting. It is hoped that everyone interested in this experience meeting will be present.

At the first M. F. church yesterday, the services were of unusual interest and importance. Rev. H. B. Foss, the pastor, baptizing 10 persons, receiving eleven on probation and twenty-one into full membership in the church. The services were concluded with the communion service at which a very large number partook of the sacred emblems. During the services the chorus of 40 voices under Mr. Haynes' direction sang the anthems "O Be Joyful" and "Rock of Ages" in a beautiful and new arrangement. After the reception of members, Mr. Haynes and Mr. Howland sang the duet "Is Life Worth Living," in a very impressive and inspiring manner. The whole service was one which will be memorable in the history of the church. During the past year this church has received fifty new members in full connection and many others on probation.

The funeral services of Mrs. Sophronia M. wife of Mr. Benjamin Lewis took place at the residence of Mr. Lorenzo Miller, at Hermon Point, on Saturday at 1 P. M. Rev. E. F. Sawyer, of this city, officiated and the following were the bearers: Messrs. Curtis, Hopkins, McLaughlin, Barrows, Miller and Hopkins. There was no music. Mr. W. H. Brown, of this city, was funeral director. The interment was at the cemetery at Hermon Point. Mrs. Lewis died at her home in Milwaukee, Wis., last week.

The well known packing house, Bayar, which has been known for the effects of a injury received at Myrtle Park a year ago last fall. He was 11 years of age and had a record of 2 1/2. He was the owner of the speedy Bowler, and was owned by C. P. Drake of Lewiston.

NO FURTHER TROUBLE. A child a humor which seemed like whooping cough and which broke and discharged a very profuse and disgusting discharge. The child (King Hood's) was a child and in a short time this humor disappeared and have had no further trouble with it. Mrs. L. H. H. East, Cornish, Maine.

HER PRIDE AND JOY.

MRS. HEARST'S DESIGNS FOR THE UNIVERSITY OF CALIFORNIA.

Best Architect of All Lands Invited to Compete—Fortunes to Be Spent in Carrying Out the Plans—Rewards for Workers—Outline of the Scheme.

The most perfect and complete university in the whole world! This is the magnificent purpose which Mrs. Phoebe Hearst, widow of George Hearst, the California millionaire, and United States senator, has with reference to the University of California, situated at Berkeley, Cal., on a slope looking out of the beautiful Golden Gate. To crown this height with a seat of learning better equipped and more beautiful and substantial than anything that now exists is the idea this benevolent and large minded woman has conceived, and the start she has made toward the fulfillment of her plan is on the same broad scale which the original thought embodied.

To plan such a university and to design buildings and lay out grounds suitable to be the home of such a force for

Mrs. Phoebe Hearst

the enlightenment of seekers after knowledge Mrs. Hearst has invited the best architects in every civilized nation to compete and has provided a generous reward for the one who shall be adjudged successful as well as compensation for the work which he or she may perform. Mrs. Hearst has had her agents traveling all over the world to select the best architects and in securing the consent of eminent men to act as judges. This work was recently completed and was followed on the 1st of this month by the issuance of a program of the purposes of Mrs. Hearst with reference to the university, with maps of the present grounds and buildings, and full and detailed information as to what would be expected of the contestants for the prize which she offers. She has set apart a sum total of \$50,000 to be devoted to premiums for the best plans. At least \$5,000 of this is to be the first prize, and the remainder for other premiums. No less than five plans are to be given prizes, but the jury retains the right to distribute the total amount of money among a greater number of plans, taking into consideration the number and merit of the entries submitted.

But this \$50,000 for the prizes does not mean to prevent the entry which Mrs. Hearst will award just for these plans alone. She has paid all the expenses of a spring lecture series of a competent jury to award the prizes and in addition will pay all the expenses of architects successful in the preliminary awards who wish to see the location of the university and study the situation on the spot. It is believed the total expense of conducting this competition will be fully \$200,000.

Of course, will be done or can be done toward building the proposed new university and if the plans have been decided upon by this contest, but there is already \$4,000,000 in donations pledged to the fulfillment of the scheme when this shall have been determined. Of this a large amount is supposed to represent the pledge of Mrs. Hearst. How much is not known, nor, indeed, is it known how much she intends to give. Mr. Edward H. Clark, the manager of the Hearst estate with offices in the Mills building, New York, says he does not know, and he doubts if Mrs. Hearst herself has fully decided. It has been stated however that Mrs. Hearst offered to erect two buildings at her own expense, one of which was to be a memorial to her late husband.

So far Mrs. Hearst's donations to the university have not been large in the light of what she intends to do, but she has always been a thoughtful of the institution and has given several material contributions. She has endowed eight schoolships to bring a college course within the reach of girls not otherwise able to afford it. She was appointed a member of the university last year.

The outline of the scheme of the new university is a very good picture of the grandeur of the result which achieved and the largeness of the spirit behind the movement. The end goal is intended to include all that could in any way be found necessary to teach the higher branches of learning. Each department is to have at least one or two buildings of its own and the plan is to have a large central building or buildings.

To give an idea of the magnitude of the plan it is to be built buildings provided for is only one part. These include Administration building, with numerous offices, university library, university museum, auditorium, with lecture, concert and theater arrangements, and study establishment with lecture rooms, libraries, museum, gallery of models, armories, soccer, I court for drills and drill field, gymnasium, two large halls, each provided with 200 dressing rooms and 100 shower baths, two swimming tanks and a large drilling and exercise field, printing and publishing establishment, laboratory, and buildings for the assistant director, chief superintendent, head of the material department and his family, dormitory for 3,000 students, clubhouses for undergraduates, for alumni, for professors and officers, infirmary, with x-ray rooms, gardens, courts, bath, physicians' consulting rooms, drawing rooms, dining rooms, kitchen and pantry, approach and communication paths, stairways, porches, buildings for general services, plant for heat and light, telephone stations, pneumatic service, warehouse, fire department, gardening departments, in connection in general, various offices and conveniences, department of philosophy and natural science, and lecture room for 400

MR. HUNTINGTON'S PLANS.

To Build the Largest Drydock in America at Newport News.

Collier P. Huntington arrived at Newport News recently. When Mr. Huntington was asked to state his intentions regarding the proposition he had made to Secretary Loring, offering to build a drydock capable of receiving the largest ship afloat, he replied: "You can say that I will shortly build the largest and best drydock in American waters, a basin in which any ship in the United States or England in the merchant marine can be safely docked and overhauled. This dock will be built on the bank of the shipyard and not on the half mile of water front property recently acquired. There is urgent need of a drydock in which the vessels of the navy can be repaired at short notice, and it is such a basin that I propose to build."

"What about the reported Armstrong deal, looking to the purchase of the shipyard?"

"Sir William Armstrong never had an option on this plant. It is true, how-

C. P. Huntington

ever, that I did see him and offered to sell him an interest in the shipyard. This deal might have been consummated but for some slight traders who sought to take part in the transaction. My reason for offering to sell an interest in the plant was to have an ordinance factory established at Newport News and also to extend the yard, though it is now one of the largest in the world. I offered to sell Sir William Armstrong half of the stock or, if he wished to have the controlling interest, 55 per cent of it. This, I say, was in the interest of the yard. I would not think of selling that much of the stock. I did not have so much other business to engage my attention. I cannot state positively whether or not an ordinance factory will be located here. I have not abandoned the idea, however."—New York Tribune.

HUMAN CHRYSANTHEMUMS.

St. Louis Florists Are Preparing to Exhibit Eastern Exhibits.

The St. Louis Florists' club believes in taking time by the forelock, and already plans are well under way for the chrysanthemum show to be given at the Coliseum next fall.

It is the ambition of the florists' club to outdo Chicago, Washington and other cities made famous by floral exhibits. Solicitors are at work now securing subscriptions from St. Louis business men for the purpose of offering a larger and better array of premiums than has ever before been known.

It is important that the proportions of the fund be known not later than March 10, as that is about the time when growers begin to plant cuttings and seedlings. The larger the premium list the larger will be the preparations made by florists for exhibits. The fund already has a good start and is booming.

One interesting feature of the flower show for 1898 will be the naming of flowers in honor of prominent society women. The judges will be selected from the St. Louis society circles, and no other exhibition during the year will probably bring together such an aristocratic assembly.

The St. Louis flower show was a success last year in every particular except financially. It is to avoid a repetition of financial weakness and to enlarge the scope of the show that the fund is being raised.—St. Louis Post-Dispatch.

Mrs. Christian left on the afternoon train Saturday for Portland.

America's greatest medicine is Hood's Sarsaparilla, which cures when all other preparations fail to do any good what-soever.
